

NoteCart Unifit 16 is a mobile storage and charging solution for 16 laptops.

NoteCart Unifit is a mobile cabinet for storing and charging laptops, Chromebooks and similar devices. Henning Larsen Architects are behind the Nordic-inspired aesthetics in the design of the NoteCart UniFit series, and the design will fit into any environment.

The four wheels on the NoteCart UniFit series have been carefully selected to complement the rest of the design, so that the NoteCart is easy to roll - regardless of the weight of the many laptops/Chromebooks and the type of flooring under the mobile cabinet.

During operation, all electronics are stored in the locked space behind the cabinet so that only the person in charge of IT has access to them. A secure cable management system ensures that the cables stay in the cabinet once they have been installed.

SOLUTIONS

- Designed for storing, charging and transporting up to 16 laptops, Chromebooks or similar devices.
- The cabinet is sturdy and easy to transport on its rubber wheels, which have been thoroughly tested.
- Strong handles on the sides make it easy to push and move the cabinet.
- The cabinet has a cable system which ensures that the cables do not disappear and that they are stored clutter-free.
- The locks on the front and rear doors mean that devices are stored safely.
- The fan ensures that devices are charged without the temperature rising unnecessarily.
